

H03R00 +3.3V / 1A DC-DC power supply

Power

Technical Specifications

Bottom (1:1)

Top (1:1)

- Input voltage: +5V to +40V DC.
- Output voltage: +3.3V DC.
- Output current: 1A.
- Six output power ports (+3.3V and GND).
- TI [LM2575SX-3.3/NOPB](#) high-efficiency, 1A, step-down, switching voltage regulator:
 - 52 kHz Fixed Frequency Internal Oscillator.
 - Thermal shutdown and current limit protection.
- Green power-OK LED.
- Input voltage connector: TE Connectivity/AMP 2-position 5.08mm shrouded header.

Available colors:
