Smart Led Lamp «DOMOVOY»

User Manual

www.diyorbuy.tech

Introduction

Thank you for choosing our lamp. We are constantly improving our products and we hope that they will benefit you and meet your expectations.

Equipment

You will find in the box:

1. The lamp.
2. Power adapter.
3. User manual.

Lamp use

Connect the power adapter to the lamp. Plug the adapter into an electrical outlet. Single pressing the red button will turn on the lamp. A second press of the button will turn off the lamp. Hold the button for 5 seconds to activate the timer. The timer will automatically turn off the lamp after 30 minutes.

In this version, the lamp timer is fixed for 30 minutes and cannot be changed.

Caution

Remember that the lamp is connected to a high voltage power supply. This voltage is dangerous for life!

Do not touch the power supply with wet hands.

When disconnecting the lamp, first unplug the power supply, and then disconnect the power cable from the lamp.

Contacts
